

## Road Closures: April 2017- July 2017

We have been advised that there are some road closures that may affect your journey to GEO Business 2017.

There will be maintenance works taking place within the Upper Street and Islington Green area around the Business Design Centre. These road works are taking place by Thames Water to reline the water pipes in the area leading to certain road closures.

The map below indicates the routes effected so please plan your journey to the Business Design Centre appropriately. Please ensure you plan your Journey with more time due to the additional Traffic.

Please be aware that bus services will be temporarily diverted on Essex Road, northbound only.

### Road Closures Highlighted:

#### **Red Circle:**

There is no Right Turn access from Upper Street on to Essex Road going Northbound

#### **Purple Circle:**

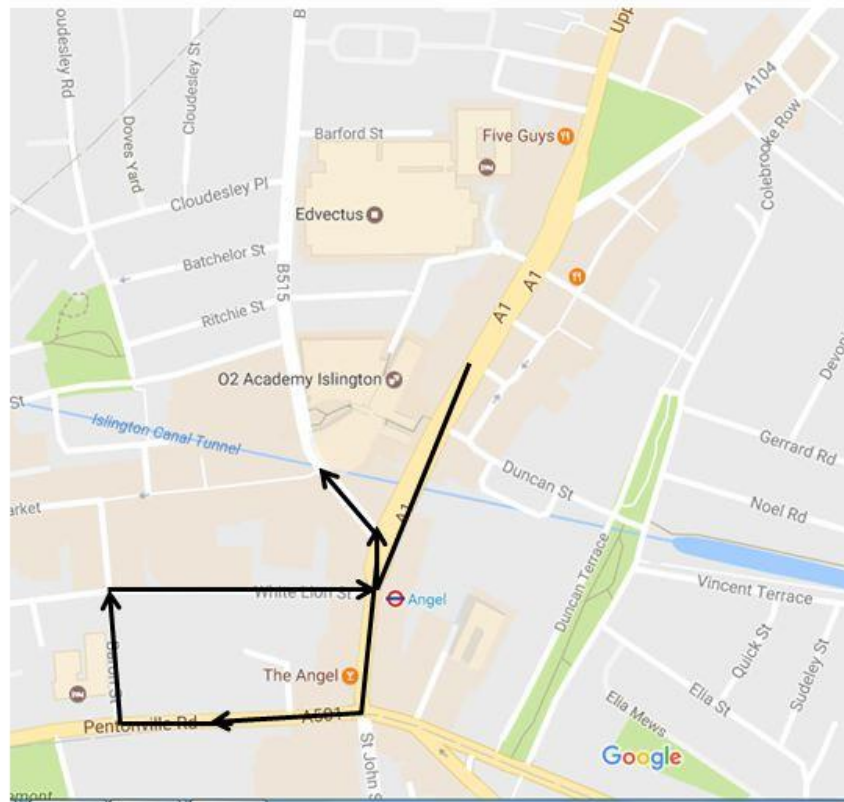

There is no right Turn access from Upper Street on to Liverpool Road. See Page 2 for Alternative routes

**Alternative Route to Gain access to Liverpool Road for the Loading Bay**

If you're coming from Upper Street you need to:

1. Follow the one way route past Angel station turn right on to Pentonville road
2. Right on to Baron Street
3. Right on to White Lion Street
4. Turn left back on to Upper Street to gain access to Liverpool Road.

Thank you for your Co-operation
